A bar chart showing the distribution of power-oriented and universalist respondents across different age groups. The x-axis represents age groups in 5-year intervals, from 0-5 to 95-100. The y-axis represents the number of respondents, ranging from 0 to 4. The legend indicates that red bars represent the number of power-oriented respondents, and green bars represent the number of universalist respondents. The data shows that for most age groups, there is 1 power-oriented respondent and 0 universalist respondents. However, for the 90-95 age group, there is 1 power-oriented respondent and 4 universalist respondents.
