95-100	46	46

Bar chart showing the number of power-orientated (red bars) and universalist (green bars) values for each age group. The y-axis represents the count, ranging from 0 to 50. The x-axis represents age groups from 0-5 to 95-100. The legend indicates that red bars represent the number of power-orientated values and green bars represent the number of universalist values.

A bar chart comparing the number of power-oriented (red) and universalist (green) values across different age groups. The y-axis represents the count, ranging from 0 to 50. The x-axis lists age groups from 0-5 to 95-100. For all age groups except 90-95 and 95-100, the counts are zero. In the 90-95 age group, there are approximately 47 power-oriented values and 46 universalist values. In the 95-100 age group, there are approximately 46 power-oriented values and 47 universalist values.
