90-95	0.0	2.0
95-100	0.0	1.0

A bar chart showing the number of power-oriented (red bars) and universalist (green bars) respondents across different age groups. The x-axis represents age groups from 0-5 to 95-100. The y-axis represents the number of respondents, ranging from 0.0 to 2.0. The legend indicates that red bars represent 'num of power-orienteds' and green bars represent 'num of universalists'.

Figure 1: Number of power-oriented and universalist values for different age groups. The chart shows that power-oriented values are concentrated in the 5-10 and 50-55 age groups, while universalist values are concentrated in the 50-55 and 95-100 age groups. Error bars represent the standard error of the mean.
