95-100	46	46

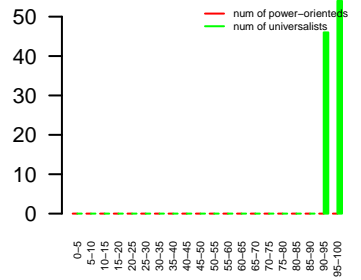

A bar chart comparing the number of power-orientated (red bars) and universalist (green bars) respondents across different age groups. The x-axis represents age groups from 0-5 to 95-100. The y-axis represents the number of respondents, ranging from 0 to 50. The chart shows that for most age groups, the number of respondents is zero. There is a small number of power-orientated respondents in the 65-70 age group (approximately 1). A significant number of universalist respondents are found in the 90-95 age group (approximately 47) and the 95-100 age group (approximately 46).
