A bar chart comparing the number of power-oriented (red bars) and universalist (green bars) respondents across various age groups. The y-axis represents the count of respondents, ranging from 0 to 10. The x-axis lists age groups from 0-5 to 95-100. The data shows that in the 10-15 age group, there are 10 power-oriented respondents and 1 universalist respondent. For all other age groups, the number of respondents for both categories is 0.
